The testimony of Gruet, the star witness for the prosecution, has created a systate semation throughout the State in it establishes the faisity of the Balley-contentions in two very important particulars.

One fact apparently, established in that the papers in possession of the Attorney-General are not forgeries, and the other is that the note for Hood which Balley claimed in its campaign speeches was paid off when due, principal and interest was charged off the cill company's books to the profit and loss account.

(BY DIRECT WIRE TO THE THES.)

DENVER (Colo.) Jan. 20.—[Exclusive Dispatch.] David Walker, one of the jurces in the Thaw case, is a former Denver man. His father, John Brisben Walker, has large inforests here.

"Thaw is a dirty little beast," said Harold Walker, brother of the jurce, today. "I knowthim fairly well. I do not know that Dave was particularly well acquainted with Thaw, but my other brother, John, quit Thaw'a company here while they were crossing the country in a special car because of Thaw's drunken orgies. I am not an intimate acquaintance. I never wanted to be."

It is alleged that Thaw went a "rapid pace" here.

Various sections of the State bring news of severe earthquake shocks last evening, the tremors varying from four to five seconds to one minute. Spencer, in Owen county, and Danville, in Hendricks county, were more sensibly affected than other places. At the former, the school building rocked so perceptibly as to cause alarm among teachers and pupils, and they ran from the building. At Danville, people rushed from their homes into the streets, and were panic-strucken.

BY THE ASSOCIATED PRESS.—P.M.]

WASHINGTON, Jan. 30.—The Immigration Bureau today received a jong report from Commissioner North of San Francisco recting the circumstances attending the landing of about 800 Alpaneses immigrants on the steamships Alameda and Korea last week. These immigrants came from Hawaii. Statements made by the immigrants indicated that perhaps fifty of them were centract laborers and the commissioner expressed the opinion that had it been possible thoroughly to examine those arriving on the Korea a very large number would have been found to be contract laborers. He believes practically all the Japanese arriving on the two vessels were recruited in Japan for work-on the Hawaiian Islands, and after remaining there for a nine decided to come to the United States.

Strict surveillance will be had over those believed to be contract laborers, and if evidence can be found substantiating this belief they will be deported.

After two weeks of lively selling, I am going in for a "clean-up" sale, which means that cost and value are not considered in making sale prices. My January sale has dispensed of many lots of excellent merchandise to a point where drastic further price reductions insure their entire selling out. That's what I am after, in this sale. It means less than cost in some instances—less than factory cost in other cases—and a splendid saving to you in every case. Read these items carefully and come prepared to buy cheaper than ever before.

Editorial -

The promptness with which you have accepted the advertised values in my Great January Sale is extremely gratifying and the firm conviction that in today's store news there are even more effective offerings pleases me immeasurably. Judge the store by the satisfaction it gives and the intrinsic worth of the values. To be truly helpful the values must be of a superior order of merit—they must impress you so strongly that closer relations will be established between this store and these that come to buy.

[BY DIRECT WIRE TO THE TIMES.].

SACRAMENTO, Jan. 20.—[Exclusive Dispatch.] Some of the Los Angeles ounty delegation would like to know just how much has been collected in fees annually for the last few years by the two township justices of Los Angeles. Knowledge of this kind will help them in deciding how to vote on the proposal to create two additional justice courts.

The plan. which was announced shortly after the fall elections and which now has appeared in the Legislature in the form of a bill is to give Los Angeles four township justices and to place them upon a salary. They receive fees at present and it is a knowledge of the amount of these fees that will assist the Legislature in determining if the move will be a good one.

There are some of the lawmakers who claim to want to act for the best interest of the people, but they do not know what is best in this instance.

It has been represented that justices that be best ilterally lining their pockets with gold, that each one of the pair in the past has received fees annually of more than double in a misdemeanor to entice a seaman to desert or to harbor a deserting seamment of the desert or to harbor a deserting seaman.

James Gunn, alias Cartnell, will appear in the Police Court today on a charge of perty larceny. He is alleged to have stolen a wig from the Burbank Theater. Two officers say they are anxious to find owners for several horse blankets and buggy robes which Gunn was trying to sell when they arrested him. They found the wig in his possession, they say. He was a "auper" in the theater.

Brutal Sweeper Fined.

C. D. Runyon, the street sweeper who struck a horse cruelly on the law with a shovel Tuesday, pleaded guilty to capielty to animays in the Police Court yesterday and got off with a \$10 fine. It is altogether likely that the man will lose his position. According to the evidence, Runyon's action was entirely unprovoked.

Chantilly Lace Drape Veils

Among the most popular novelties this spring are to be Chantilly lace drape veils. We have them here in lengths from I I-2 to 2 yards; brown. navy, green, garnet, black and pale blue. And whether you wish to pay \$1.25 or \$9.50, or any in-between price, you'll find the very best values here.

More Remnants—Half Price

Unpleasant weather seems to have little effect in keeping buyers away from the Wash Goods Section these days, when remnant lengths of some of the very prettiest and most stylish challes, wool waistings, French flannels and similar seasonable goods are going at half price. Hardly a piece that isn't plenty large enough to make a waist for yourself or for the children going to school.

Light, medium and dark colors, dots, stripes, checks and novelty Persian designs

represented.

Silk Vests-Much Reduced

I their cost has hitherto deterred you from wearing silk undergarments, we've removed today the last obstacle, in reducing fine silk vests as follows, because they're left us only in the smaller sixes, and not all shades.

Dests that were \$1.50 are now \$1 and \$1,25, rests that were \$1.78 are now \$1.50, cut high neck, with short sleeves.

High necked-long-sleeved vests that were \$2.25 are now \$1.75, with others at like reductions.

The Silk Section Shows for Spring Gowns

The best of foulards-Cheney Bros. shower-proof, in messaline finish-in all their diversity of design. Coin spots in several sizes, fancy sprays of delicate follage, and the conventional designs that first popularized foulards. 23 and 24 inch widths, 85c to \$1,28 a yard.

We're now on display the handspmest line of plain and embroidered shadow check silks that even we ever showed-which is saying volumes, \$1 to \$1.50. And the most striking Roman stripe silks you'll find in this collection, too.

Among new silks Marquisette stands out pre-eminent, Here in both the plain, and the shadow check and shadow stripe styles. Buy it in black, white or colors, as you prefer. 48-inch width, \$2.28 yd.

Crepes de chine will enjoy a distinct popularity for spring wear. Every shade in these all-silk, clinging fabrics here in 24-inch width, from \$1 to \$1.50 a yard.

The T.W.C.A. boarding hall at core of Twentseth and Grand avenue urted with one of their choicest possions last evening and the fair ide was their "Baby," as they call, eightness-year-old Miss Ethel Ham-on, "Why," said one of the older girls,

ning, dimpled tot of 5, and then he had awaying her on his shoulder many times. Now he wrote pleading with her to be married. She is a soft-hearted little lady, and so she consented and the wedding took place last evening in the Y.W.C.A. hall, with all the giris gathered around.

The rooms were bright with blossoms and greens and the ceremony took place beneath a bower of asparagus zerns and smilax in which mingled stately lilies. The brown-eyed bride was radiantly happy and sweet in a clinging gown of white with lace trimmings, and carried a great bouquet of bride roses. Her tuile veil, which, by the way, was the same worn by her mother twenty-five years ago, was caught with orange blossoms in coronet fashion. Miss Jones, one of the Y.W.C.A. girls, was maid of honor and wore white, carrying pink roses. Mrs. Rogers rendered the wedding music and the impressive ceremony was read by Rev. Warren F. Day.

Mr. and Mrs. Rudy have gone to Hotel Alexandria, and after a short stay there will travel to S-attle, San Rrancisca and Portland before going to Arisons to make their home.

Mrs. Chandler's Luncheon.

Mrs. Jefferson Paul Chandler of No. 715 West Twenty-eighth sireet entertained yesterday with a beautiful luncheon for Miss Louise McFarland. Pink roses and tuile were combined in the levely decorations and places were marked with monogrammed cards.

PUT ALL YOUR MONEY IN BRICK STOCK

It Will Justify Every Dollar You Invest

We desire every man and woman with the intelligence to read to sit down and consider what we have to offer in the stock of this company. The United States Granité Pressed Brick Companis prepared to begin the making of a brick which is steadily but surely revolutionizing the brick industry all over the civilized world. It is a quicker process twenty-fold. It costs only 33 1-3 percent. Of the usual cost to manufacture. The brick produced by this process is better, more enduring and absolutely uniform. It is a handsomer brick. It may be made in any shade or color de sired. It takes less mortar to bind it in the wall. Being smoother, it takes less time and lays faster. It is not an experiment, but has been tried and tested for years. One plant in Berlin is turning out 400,000 pressed brick daily. Scientific structural engineers testify to its merits. Architects applied its handsome appearance. Nations have adopted it for its strength and durability. Learne professors have passed upon its crushing strength, its transverse resistance and its absorption qualities and pronounce the pressed granite brick superior to any other brick made. It is a business offering positive returns from the very beginning and it appeals to every man and woman anxious to set aside a few dollars to provide themselve a lasting income.

Work Commenced on the Plant

Work commenced last week on the plant, Fifteenth and Alameda streets. The

factory will have a powerful crusher, a large mixer for the material, a series

of chutes and a large steel cylinder for hardening the brick. This will be one of the latest and most scientifically equipped plants of its kind in America. It

will have a capacity of 20,000 brick daily. This means that 20,000 brick, which

would take by the ordinary methods twenty days or more to make, can be

turned out by our process in twenty-four hours. It means, further, that the cost of making granite pressed brick is correspondingly reduced. We make

it for one-third the usual cost, turning out 20,000 brick daily at \$7 a thousand.

The profit is apparent at a glance when it is considered that the price of

pressed brick ranges from \$35 to \$60 a thousand.

"While it yet may be possible to close some arrangements, there are still more than thirty special trains from different cities of North America unprovided with hotel facilities. "It is a well-known fact that if the imperial Council should not sheet in Los Angeles the hotels would have hundreds of empty rooms. If we are to have a convention city we certainly must make provisions for our guests. The man from Cleveland seemed inclined to cancel his special train at once."

Mr. Flint says that he is at a loss to understand how hotel men can refuse to make contracts for their rooms at good profit, and—as may be seen—at sure pay.

Public Confidence Demonstrated No company ever sold its stock in Los Angeles to a more satisfied public. It

started a few short weeks ago at \$5. The allotment was quickly sold. Another allotment at \$6 was soon oversubscribed. There is a small block now offered at \$7 and it is going fast. Not a share will be sold over and above the amount necessary to build and equip the plant, the machinery for which has been ordered. The directors of the company are men of experience in the brick industry and of recognized business ability. They do not intend to sacrifice a single share of the stock, as the company would rather hold than sell it. With an eager market awaiting the output at good profits, it is safe to say that within a year after the plant has been placed in operation this stock will be worth not less than \$50 a share.

Every Dollar You Invest Helps to Found An Income for You for Life

A SHARE NOW

In lots of 10 shares or more, par value \$10 a share.
You cannot buy a share in any other brick concern in California, and you cannot buy this much longer.

Those who purchased at \$5 have made money by the advances, but it is not a tithe of what the stock will steadily pay in dividends when the industry is established. We will have the plant in operation in 60 days if the weather remains favorable. If you wish to place a few dollars in a business where results are certain call or write at once. There is no element of chance in this. It is business, not speculation. It is a certainty, not a possibility. Come in and see the bricks made by our process and judge the merits of the industry by the product, the cost and the selling price.

Land Company. The consent of lower and caused much destruction to products.

Now the company is building a leves, to cost \$3000. The land cost the company is of lower, one of the leading the concern, arrived about a grown of the leading the concern, arrived about a grown of the leading this leves by the grand jury. But the farmers gained the day, and are determined to make the river run in its right channel.

When completed, the leves will control the river from the Pifth-street bridge down to Tolbert.

EXTENSION ASSURED.

The Board of Trade yesterday received the encouraging news from the Huntington Beach Company that the Pacific Electric extension from this beach is assured.

The Huntington Beach Company will build a boulevard the entire length of the proposed railway track.

HUNTINUTON BEACH, Jan. 38.—
At last the celery growers think they have won in the levee proposition.

An incorporated company of farmers and celery growers here, in order to keep the Santa Ana River in its channel, has purchased land along the river banks near First street, between Santa Ana and Westminster, where the river heretofore has broken over and caused much destruction to products.
